81x90 Bleached Sheets

"Not for the Belgian railroads, how ever," added Mr. Grosjean, "because the railroads in Belgium are owned and operated by the government, and it would with the employes. But the principles of the Erdman law can very well be adjusted to cover arbitration in coal mine strikes, factory strikes and other diffi-All-wool Sweaters, culties which arise between employers and laborers."

BELGIAN INVESTIGATES

Banker Believes Plan Could Be

With Benefit.

Paul Grosjean, a banker of Brussels who is here on behalf of the Belgian

government to investigate and report on

the Erdman law and its efficacy in sets tling labor disputes which arise in inter-

state commerce, said, in an interview

today that he considered the Erdman law

excellent, and that he believed i

could be copied with great benefit by the

Belgians.

Adopted by His Country

Mr. Grosjean said that he would be in Washington for about a week and would consult Commissioner Neill of the bureau of labor and Secretary Nagel of the Department of Commerce and Labor in regard to the operation of the Erdman law. He intends, too, to go thoroughly into the matter with the labor organizations of the country, particularly the Brotherhood of Locomotive Engineers and the Brotherhood of Firemen and Enginemen, and with the railroads. "I wish to get all sides of the question before I leave this country," said Mr.

Mrs. Grosjean an American. Mr. Grosjean has traveled extensively

n the United States in former trips to this country. His wife, who was formerly Miss Mabel Lahr of Evansville, Ind., is at present at her old home, where she will be joined later by Mr. Grosjcan. "Yours is a wonderful country," said Mr. Grosjean. "Everything here is on 4 big scale, bigger than anywhere else Even in your wastefulness you excel all the older nations. It has been said be fore that what an American family wastes would be sufficient to support a family fancy buttons. All have full plaited skirts. Sizes from 6 to 14 of similar size abroad. And this is true in a very large sense. All classes of Americans are wasteful, and unless they learn to save there will be great distress in this country some day. The United States is a young nation, to be sure, while the European countries have been learning for years to save, and have taught their people how to save. The establishment of the postal savings banks in this country is a great step in advance and Children's Outing Flannel Nightgowns, neat pink and blue stripes. taught to keep their money for a rainy day. Abroad we have had the postal savings banks for years, and while we make it very easy to deposit money in these banks we make it exceedingly difficult to draw the money out, which tends

"Look at France. All of her people save. They are the great savers of the world. Consequently, France is one of the richest nations. When other nations need money they always turn to France for a loan."

Too Much Tuberculosis.

Mr. Grosjean said that America was a leader in many sanitary reforms, but that he could not understand why it did not make a strenuous effort to wipe out

"There is more consumption in this country and more persons die of it here than in any other nation I know of." said Mr. Grosjean. "You have laws against spitting on the sidewalks and in the cars. But every one spits, and no one is arrested and fined. If we had a law abroad, the government would certainly see that it was enforced."

Mr. Grosjean was entertained at dinner
Monday evening by Dr. and Mrs. J. H.
Gore. Invited to meet him were Gen.
George H. Wilson, Judge and Mrs. Knapp,
Dr. and Mrs. C. P. Neill, Mr. and Mrs.
Henry Gannett, Miss Larsson and Miss

Desirable Seats in Senate Made Vacant by Death.

FIRST APPLICATION WINS

Changes That Will Be Made in the Coming Session. Deaths of senators since the last ses-

sion of Congress made vacant several of the most desirable seats in the Senate chamber, and the convening of Congress next Monday will mark a decided rearrangement of seats. Senator Daniel of Virginia and Senator

McEnery of Louisiana had seats in the front row on the democratic side, near the center aisle. The Virginia's, second from the center aisle on the front, has been obtained by Senator Hughes of Colorado, a comparatively new member. Senator Johnson of Alabama has secured the seat of the late Louisiana senator, the sixth from the center aisle in the

Senator Bradley will move from "the Cherokee strip," on the extreme minority side, to Senator Dolliver's desk, in the back row of the republican side. Senator Rayner of Maryland will have the late Senator Clay's seat, near the center aisle in the third row. Senator Percy of Mississippi will move to the seat which Sen-29c ator Johnson gives up, Senator Fletcher of Florida moves to Senator Rayner's desk and Senator Oliver will jump from the back row to the front row of the Cherokee strip in taking Senator Brad-

Back Row Seats Vacated.

This rearrangement leaves vacant two seats in the back row on the democratio side and two seats one in and one adjoining the Cherokee strip. Senator Swanson of Virginia will get one of the back row desks and Senator Terrell of Iowa will be assigned to a seat in the back row of the Cherokee strip, and the choice of the Louisiana legislature of a successor to Senator McEnery will get the other seat adjoining the Cherokes strip, but among the democrats. The readjustment of the seats in the Senate is dependent entirely on speed in filing on a vacant seat. If there are prospects that a desirable seat in the front row will become vacant, there is a

rush of senators to file applications for the seat, and the first one who files Senator Shively's Courtesy.

Last spring the most desirable seat on the democratic side of the chamber-that in the front row next to the center aislebecame vacant through the death of Senator McLaurin. Senators Chamber-lain of Oregon and Shively of Indiana,
